

Healthcare IT

Driving Advancements in the Provider & Patient Experience

ettain health is led by business, technology, and clinical experts with deep expertise to support our customers in selecting, implementing, and optimizing their information technology investments. We are committed to providing customized solutions and connecting talent to meet critical needs of healthcare customers nationwide. We invest in knowing your facility, your team, and the culture paramount to your patient experience. With expertise across Epic, Cerner, MEDITECH (certified Meditech Expanse consulting firm), and other majors EHRs, ettain health is the partner you can trust to provide expertise and deliver and manage top talent across the full spectrum of healthcare IT projects.

Our Services

Advisory Services - From IT Strategy to Vendor Selection, our experts help direct technology decisions in fulfillment of your strategic vision and align investments required to get there. Not only do we help establish the vision, we also ensure a clear comparison of options leading to comprehensive total cost of ownership.

Enterprise Implementation Services - Our Pre-Implementation Planning services ensure your teams, resources, and infrastructure are adequately prepared for an upcoming project. We leverage our expert System Design & Build services with deep knowledge of vendor systems that align process, people, and technology. And we deliver expert Training coupled with Activation & Go-Live services to help ensure user acceptance of new technology, leading to improved performance.

Optimization & Support Services - Our System Optimization services examine and improve workflows and processes to help achieve optimized use of technology, both clinically and operationally. In addition, our Application Management Services leverage deep expertise to support your current and legacy applications, freeing valued resources to focus on more important goals of the organization.

The ettain health Advantage

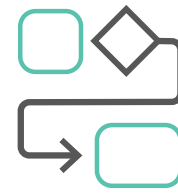

Solid Reputation

We take great pride in our long-standing, trusted customer relationships with a diverse base of healthcare providers.

Vendor Inclusive

We deliver deep clinical, financial, and technical expertise across all major EHR/HIS systems.

Proven Methodologies

Based on years of experience and lessons learned, we bring best practices and tailored methods to every project.

Experienced Team

We leverage 350+ experienced full-time health IT consultants and a talent pool of 3,000+ professionals.

Strong Culture

Everything we do builds on a commitment to do the right thing for our customers, our people, and our community.

Deep History

We bring a 25-year history of delivering critical solutions to our customers' most demanding challenges.
