The Honorable Bill Cassidy
United States Senator
703 Hart Senate Office Building
Washington, D.C. 20510

Dear Senators Thune, Alexander, Burr, Enzi, Roberts and Cassidy:

The College of Healthcare Information Management Executives (CHIME) is pleased to support S. 3173, the EHR Regulatory Relief Act. The legislation would enable greater flexibility for the participants of the Medicare and Medicaid EHR Incentive Program, also known as Meaningful Use.

CHIME is an executive organization serving more than 1,900 chief information officers (CIOs) and other senior health information technology leaders at hospitals and clinics across the nation. CHIME members are responsible for the selection and implementation of clinical and business technology systems that are facilitating healthcare transformation. Our members represent some of the earliest and most prolific adopters of electronic health records (EHRs) and other health IT resources for clinicians and patients.

Since enactment of the Health Information Technology for Economic and Clinical Health Act of 2009 (HITECH), the healthcare industry has made a significant shift in the way technology is used to deliver healthcare. Technology is a key enabler to achieving the Triple Aim of an improved patient experience, better population health and reduced costs. To fully harness the power of health IT across the continuum, additional flexibility must be woven into both the construct and administration of the Meaningful Use program. Without key refinements to the program, efforts to improve nationwide interoperability and information exchange will not progress as quickly as patients deserve. We share your concerns about the trajectory of the

program and appreciate your efforts to provide greater stability for our members as they navigate transitions to new payment models and the drive toward high-value care.

We appreciate your continued interest and leadership on this subject. We stand ready to work with you and your colleagues toward the passage of this important legislation, which would assist our continued efforts to make an interoperable healthcare delivery system a reality. Should you have questions about our position or require additional information, please contact Leslie Krigstein, Vice President of Congressional Affairs, at lkrigstein@chimecentral.org.

Sincerely,

A handwritten signature in black ink, reading "Russell P. Branzell". The signature is written in a cursive style with a large, prominent initial "R".

Russell P. Branzell, CHCIO, LCHIME
President and CEO
