

The CHCIO Examination Blueprint

Certified Healthcare CIO

The CHCIO Examination Blueprint was recommended by Comira in March 2013 and approved for use in subsequent item development meetings. The examination blueprint represents the percentage of the items on the actual examination from each of the domains.

Domains		Average	Min-Max
1	Organizational Vision and Strategy: Evaluation and alignment of people, processes, resources, and solutions to enable the achievement of organizational goals	20%	19-21%
2	Technology Management: Assessment, design, implementation, and support of technology to inform decision-making and drive measurable outcomes	15%	14-16%
3	Change Management: Provide leadership to guide and support process change and adoption to move to an identified future state	13%	12-14%
4	Value Assessment and Management: Assessment and demonstration of the value of solutions which promote efficiency and meet business and consumer needs	10%	9-11%
5	Service Management: Elicit and identify constituent needs and expectations, articulate solutions, and provide effective responses to meet needs and expectations	11%	10-12%
6	Talent Management: Build and sustain a high-performing organization of teams and individuals	14%	13-15%
7	Relationship Management: Identify, build, and maintain relationships of trust and partnership with internal and external stakeholders	17%	16-18%
Total		100%
