

CHIME Advocacy Summit
Wednesday, October 3rd – Friday October 5th
Washington, D.C.
Hyatt Regency Washington on Capitol Hill

Wednesday	October 3, 2018
12:00 – 4:00 pm	Registration
3:30 – 4:00 pm	Welcoming Remarks
4:00 – 5:00 pm	Keynote Speaker
5:00-7:00 pm	Reception
Thursday	October 4, 2018
8:00 - 8:15 am	Opening Remarks
8:15 – 9:00 am	To Care and Protect: Balancing Patient Access with Cyber Safety Obtain a high-level overview of the federal policy challenges facing senior healthcare IT leaders and their organizations as they try to meet demands to share information more widely while simultaneously trying to protect against increasingly frequent and sophisticated cybersecurity threats. Hear from leading healthcare IT executives who have helped educate policy decision makers about these issues.
9:00 – 9:45 am	Federal Agency Keynote – The Future of the Medicare Program and the Role of Technology Hear from the leadership of the Centers for Medicare and Medicaid Services (CMS) about the future of the Medicare program and healthcare IT’s role in the continued drive to increase quality, lower costs and provide patient-centered care. The session will include a discussion about how interoperability will facilitate healthcare delivery system reform.
9:45 – 10:00 am	Break
10:00 – 11:00 am	From Vision to Reality: Interoperability in the Era of the Engaged Patient The Meaningful Use Program is now Promoting Interoperability. Learn how recent policy changes to focus on interoperability and patient-driven exchange are being implemented in provider organizations. Explore policy barriers and potential recommendations to enhance the use of healthcare technology to improve patient care through widespread health information exchange.
11:00 – 12:00 pm	CMS Listening Session – Life After Meaningful Use: The Future of Promoting Interoperability and Advancing Care Information Attendees will have the opportunity to interact with senior leadership from the Center for Clinical Standards and Quality concerning the Promoting Interoperability program and the Quality Payment Program. Learn how CMS envisions the programs will be implemented and strategies to ensure a smooth transition into these new policy directives.
12:00 – 1:00 pm	Lunch

<p>1:00 - 2:00 pm 2:00 – 2:45 pm</p>	<p>Cybersecurity Policy Fireside Chat Congressional committees and federal agencies increasingly recognize the disruption and harm that cyberattacks pose to our nation’s health systems and patients. In this discussion, national cybersecurity experts will discuss federal resources, gaps and how the provider and industry communities can become engaged in efforts to build a stronger cyber profile.</p>
	<p>Press Panel: Health IT Journalists Discuss Policy Trends</p>
<p>2:45 – 3:00 pm</p>	<p>Break</p>
<p>3:00 – 4:00 pm</p>	<p>Combating the Nation’s Opioid Crisis Lawmakers have introduced scores of opioid bills and the federal government has appropriated almost \$10 billion to fight the opioid epidemic. This session will focus on opportunities to use health IT to combat the crisis and the barriers that need to be removed to better serve patients exposed or addicted to opioids.</p>
<p>4:00 – 4:15 pm</p>	<p>Break</p>
<p>4:15 – 5:00 pm</p>	<p>Telemedicine Reimbursement Landscape Lack of reimbursement has been a major barrier to the use of telehealth and remote patient monitoring in the U.S., but that has begun to change. This year, bipartisan support on Capitol Hill has opened telehealth to a variety of patient populations and, with the help of health IT, is changing how medicine is practiced. This session will highlight the reimbursement landscape and the near- and long-term opportunities for growth.</p>
<p>5:30 – 7:00 pm</p>	<p>Policy Power Hour Plus – Networking with Your Peers Location: McDermott, Will & Emery Rooftop</p>
<p>Friday</p>	<p>October 5, 2018</p>
<p>7:30 – 8:30 am</p>	<p>Breakfast - KLAS Report Reveal –Medical Device Security 2018</p>
<p>8:30 – 9:30 am</p>	<p>Connected Care: Reaching Underserved Populations Provider shortages and resource restraints are exacerbated in rural and underserved areas. Learn from the Health Resources and Services Administration (HRSA) about efforts underway to leverage technology to reach underserved populations.</p>
<p>9:30 – 10:30 am</p>	<p>Medical Devices: Future of Medical Device Oversight Following widespread cybersecurity threats like WannaCry and Petya, medical device cybersecurity has become a topic of interest for Congress, the Food and Drug Administration (FDA) and the industry. This session will include perspectives from policy makers and healthcare providers on how they are handling medical device cybersecurity.</p>

10:30 – 10:45 am	Closing Comments
11:00am	Adjourn
